Do you feel like you are being outsmarted by your new smartphone, or do you feel like your phone is not so smart after all? What do you do when your smartphone tells you it is out of memory? And are you wondering where that cloud is? Liz Mitofsky is going to offer some tips and answer your questions so you can become smarter than your phone.

Our first smartphone session will be on Monday, September 26 from 10 a.m. to noon. Sign-up sheet is on the credenza. This session will focus on Apple’s i-phones and i-pads. For more information, please call Liz at 623-505-7206.

If you are an Android phone or tablet user, we are planning on scheduling a session for you later in the fall, however, if you cannot wait that long, you can also attend the i-phone/i-pad session, as many symbols and commands are the same across all products.
